Spoonfuls – close at hand!

Here at the BURG Oberlech!

Where guests are treated like Kings: a stay at the Burg

The Oberlech Plateau is the sun lounge of the Arlberg. You are sure to be captivated by the unique mountain landscape all around and enjoy the luxuries of the BURG hospitality.

In the BURG mission statement, the Lucian family state in black and white what they expect from their employees.

Namely: “the hosts provide guests with relaxation and well-being in the fields of well-being, cuisine, sport and mental revitalisation in Summer and Winter, within the

unspoilt natural landscape, supported by friendly and attentive staff members”. This is much more than lip service, as the Lucian family have shown over the past few years and decades. The Lucian family hold true to the maxim that their main priority as hosts, and that of their 100+ staff members at the hotel, is to meet guest requirements, 100%.

This may not always be easy but the 95% occupancy rate of the BURG indicates that the Lucian family know what

they are talking about and can keep their promises.

The friendly atmosphere at the hotel is one of the special features the host family are particularly proud of: “We offer a perfect service for all the family. Ranging from the hotel’s own ski and shoe hire service with the latest models always on offer to our child-care assistants and kinderland area.

We also look after our adult guests: whether ski passes, equipment or a ski instructor

– everything can be booked from the hotel in advance.” It is not without good reason that the hotel is called BURG (castle) – as guests are treated like the King of Oberlech here!

Delve into an oasis of senses

Delve into the BURG oasis of senses. Enjoy being pampered by our professional beauty and well-being team to your heart's content after a busy day of sport in the fresh air.

The BURG oasis offers are wide-ranging – with new applications being added all the time. Relaxation and letting go are just as much a part of a Winter holiday as skiing and other

sporting activities. This mix of action and complete relaxation guarantee well-being and great physical fitness. Relaxation after skiing is important for optimal training success. After a

day on the pistes, tired muscles crave rest and recuperation. If you allow them to regenerate properly, the risk or injury will be significantly reduced – and your sporting ability will increase.

All life comes from the sea

The teachings of Thalasso are based on the theory that all life is derived from the sea. The team at the BURG oasis work with natural and physiologically beneficial substances such as algae, sea salt and sea mud.

A Thalasso cure strengthens the immune system, stimulates the metabolism and has additional positive effects on the body: the therapy is recommended as a treatment for stress and to increase general well-being as well as for relaxation, rheumatism, musculo-skeletal complaints, general tiredness, sleep problems and obesity. Thalasso therapy also includes cosmetic applications to firm the skin and packs to support weight loss. Special treatments and so-called Thalasso taster days are offered at the BURG.
